**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am very happy with Sonic. A free market, just like a balanced ecosystem, cannot sustain only a few species: we need diversity to thrive. Please keep the game alive. The relentless pursuit of success and domination, over any other considerations, is not tenable or beneficial except to those that dominate. Im disappointed that it seems that large corporations feel that they must dominate at all costs. It is only by willfully ignoring the voices of the people that these corporations can achieve their desired dominance. The government should not be a player to this usurpation of the people. We are better than this. The big companies should fight fair, and provide the same services, and let the people decide.
